Workplace Health and Safety Policy

Eire Total Access regards Health and Safety as one of the pillars of its business operations and as such includes HSE in its strategic planning and decision-making processes. The team at Eire Total Access believe a happy and well-informed workforce is a safe workforce, and a safe workforce is a productive workforce, therefore HSE works side by side with other business functions to create a work environment that prioritizes safety and productivity.

The team at Eire Total Access demonstrate their commitment to safety by:

- Providing a safe place of work for all employees;
- Eliminating hazards, or where not practicable, reducing risk to employees;
- Being proactive in their approach to HSE management;
- Taking a 'minimum requirement' approach to legislative compliance;
- Using facts and data to make HSE decisions and set objectives and targets;
- Communicating with all stakeholders regularly regarding HSE matters;
- Striving to be an industry leader in HSE;
- Reporting, investigating, and learning from all safety incidents;
- Promoting awareness of safety and health issues relating to the workplace, including mental health and healthy living;
- Maintaining a comprehensive and accessible safety management system and committing to continuously improving safety performance.
